

CR-M4202A2 Conference Microphone with Voting

Our CR-M4202A2 conference microphone with voting is a clamshell chairman unit. It is equipped with a high-fidelity tablet speaker which gives more uniformly distributed sound. After the mic is turned on, the speaker automatically mutes, so howling is not liable to occur.

Features

1. The chairman unit has the priority function of fully controlling the order of the conference. It has the function of approving the representative's request to speak.
2. The chairman unit is not limited by the number of speakers. Its connection position is not restricted either.
3. T type connection mode is adopted.
4. This cardioid condenser microphone has a bicolor indicator which is red during speaking and green when requesting to speak.
5. Our conference microphone with voting is designed with a built-in speaker, a headphone jack, and a volume control knob.

Specification:

Model	CR-M4202A2
Power supply	Host-powered
Unit interface	Aviation 8-core dedicated interface
Max. power consumption	3W
Headphone transmission	8-32Ω, 3.5mm mini jack
Directional characteristic	Cardioid
Speaker power	2W
Microphone type	Capacitive diaphragm
Crosstalk attenuation	>80dB
Distortion	<0.1%
Frequency response	60Hz - 18KHz
Sensitivity	-22Dbv/pa
Color	Dark grey
Signal to Noise Ratio (S/N)	> 80dB
Equivalent noise	≈20dB SPL
Max. SPL	105dB (3% threshold)
Dimensions (mm)	241L×143W×57H

We also provide another product which has the same functions with CR-M4202A2.
